Madonna of Bruges

Madonna and Child shares certain similarities with Pietà, which was completed shortly before--mainly, the chiaroscuro effect and movement of the drapery. The long, oval face of Mary is also reminiscent of the Pietà

Is some of the art stolen by the Nazis still missing?

Yes Unfortunately to this day, not all of the stolen art has been recovered. Despite the discoveries of thousands of art repositories that were used to conceal the Nazi's looted treasures, priceless masterpieces like Bernardo Bellotto's "View of the Grand Canal in Venice" and Sandro Botticelli's "Portrait of a Man" have never been found (both are pictured on the left).
